

# Fabulous Foods!

Your Name: \_\_\_\_\_ Age: \_\_\_\_\_

In the world of food, chefs make new things all the time by combining familiar foods in new ways—just like the kid who invented the Popsicle by putting a stirring stick in a drink and freezing it. Let's create a brand new restaurant together using our imaginations!

**First**, name the **RESTAURANT**, and say what kind of food it serves. Think about where the food comes from and the style of food (Is it Italian? From a made-up place? A dessert bar?) Then, come up with your **MENU**.

**Next**, you can draw the restaurant's **CHEF** (the one making the food) and design any special tools they use.

**Lastly**, you can invent the chef's **SIGNATURE DISH**, which is what the chef is famous for making. Remember: you have **Permission to Get Weird**: you can use real kinds of foods or made up ones, or both!

**MY CHEF IS A:** \_\_\_\_\_

Draw your chef here and label their kitchen tools:

**CHEF'S NAME:** \_\_\_\_\_

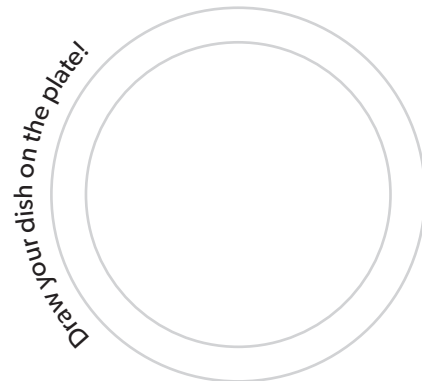

**RESTAURANT NAME:** \_\_\_\_\_

Type of food: (What place is the food from? Or what kind of food does it serve?)

What's on the menu? (List some dishes)

**SIGNATURE DISH:** \_\_\_\_\_

Ingredients:
